

Logistics Provider

LOGI*sped*
International Forwarding and Logistics

As a medium-sized organization, **LOGISPED** offers a very personal and individualized service, our customer always comes first.

Our number one goal is finding and implementing innovative and flexible solutions.

Our professional know-how contribute to a successful business performance.

- established in 1995
- headquarters in Žilina, Slovakia (EU)
- family-owned company
- flexible organizational structure
- deliveries to European and Asian countries
- long - term cooperation with leading European transportation companies
- partnership with global logistics providers
- long term experience with railway logistics to Europe, Balkan, former Soviet Union and Asian countries

Logistics Provider

Rail Logistics

- optimization of the transport route concerning the consignee's destination
- optimization of the goods packaging versus loading space management
- securing the supply of an appropriate wagon type
- wagon management
- transport at contractual prices in Europe and Asia
- freight costs savings using "**block-train**" solutions
- guarded shipments to CIS countries
- on-line tracking and tracing (Internet database system)

Logistics 1435mm <-> 1520mm

- long-term experience with rail deliveries to "eastern" countries using 1520 mm rail gauge
- well developed network of proven reliable partners in Russia and other CIS countries
- securing the flawless and flexible transshipment of the goods
- re-packaging the goods, re-expedition of the shipment at the reloading facility
- securing and application of 1520 mm private-wagons
- customs and tax consulting in relation to the transport means

Intermodal/Combined solutions

- optimization of the vehicle choice in relation to the consignee's destination facility
- possible absence of a rail connection substituted by a simple intermodal or combined solution :
rail <-> (warehouse) <-> truck (or vice versa)
- designing the supply chain in order to minimize the overall total costs of logistics
- operating several solutions using warehousing and **"just-in-time"** truck distribution

Global Logistics

- cooperation with carriers of containers, shipping and seafreight companies and agencies
- securing the container disposal and manipulation at loading / unloading site
- successful cooperation with partners in ports:
Hamburg (D), Cuxhaven (D), Rotterdam (NL), Koper (SI), Rijeka (HR), Szczecin (PL)
- container shipments via the Trans-Siberian Railway to China
- use of container also for short-distance intermodal solutions

Efficient IT-system

- internally developed Internet-based database system
- fast and direct web access of the client to all the information on the delivery
- tracking and tracing of the delivery
- linked with various tracking systems of involved railway authorities and forwarding partners

Tracking

- shipment information
- transshipment information
- positioning
- additional documents
- e-mail advice
- print FCR document
